

Due to the recommendations by the CDC to limit person-to-person contact in an effort to control the spread of the virus known as COVID-19, **Farmers State Bank is encouraging ALL customers to use the drive-up window for the majority of their transactions.**

At this point in time, we are not closing our lobbies and as long as you are healthy you are welcome to come inside to sign loan paperwork, open a new account or conduct any lengthy transactions. However, if conditions escalate, access to our staff may be limited.

These are trying times for everyone and **Farmers State Bank** is committed to doing its part to ensure the health and safety of its employees and customers.
